Interiors

However small or huge a house or construction might be, however condensed or expansive it may appear to be, the structure can greatly enhance its visual and aesthetic appeal when it is dealt with the appropriate architectural touch.

We have a team of great architects and interior designers who provide you with beautiful interior solutions for your Office spaces, Residential Apartments or independent houses. Our team of artists carefully studies the client's requirements, and offers suggestive inputs akin to his tastes.

Wood work, Metal or Wooden Balustrades, Glass or Metal Partitions, Textured Walls, Elegantly Designed Ceilings, Artfully Laid Floors, Adjustable Lighting based on moods, Sound Proof Studio Rooms, Airy Living Rooms or Greening of open areas; RGVR is your expert advisor and architect of your special Interiors & Exteriors.

Construction

We undertake all kinds of constructions ranging from a micro-medium level to a mega scale, such as Group Housing, Gated Communities, Apartment Blocks, Business Complexes, Shopping Malls, Industrial Infrastructure, Warehouses and numerous others. From diligently assessing client requirements, the nature of the project, the budget involved and the time available, RGVR offers full advisory support and aid in the complete construction of the structure.

Starting from the conceptual planning and the architectural design of the construction, RGVR undertakes all aspects of construction to create masterpieces that are thoroughly functional, architecturally sound, and demonstrate amazing structural strength and elegant aesthetics. RGVR organizes the complete manpower, technical expertise, renowned architects, engineers, raw material and all the relevant inputs to create successful and client oriented infrastructure, while ensuring the legalities and Govt. approvals and licenses are thoroughly addressed.

Building Restructuring and Renovation

Old buildings that are a few decades old can be brought back to life by proper reinforcement, repair, renovation, and refurbishment. We undertake all kinds of building renovation including remodeling and restructuring through our fully customized solutions. Rebuilding, Re-plastering, Repainting and redoing civil and engineering works such as plumbing, electrical works are all part of our restoration plans. Our restructuring plans Endeavour to confer a modernized look, fortifying and beautifying structures, while preserving classic appeal where necessary.

Green Homes

The concept of Clean and Green living has gathered great momentum globally with more and more individuals and corporate venturing into eco friendly housing projects.

RGVR's focus on Green Homes is to incorporate most environment friendly practices through the use of eco-friendly materials wherever possible and allowing for natural lighting, ventilation, energy saving accessories and appliances, rechargeable and solar energy devices, construction of recycling plants, anti polluting mechanisms and rain water harvesting schemes etc. RGVR's objective on Green Homes is to leave as much open space as possible while assuring maximum comfort within the built up areas.

The sight of naturally green and verdant open spaces is as much a comfort to the soul as much as it is a delight to the eyes. RGVR goes beyond conventional Green Homes concept and takes joy in creating idealistic environs for its clients using extensive and beautiful landscaping designs and horticultural spreads across all its projects which convey a message of health and happiness.
